U.S. Bank National Association will act as Trustee. The Trust will enter into an interest rate swap agreement with Credit Suisse International (the Swap Provider). Interest will be paid to the Class A certificates, followed by interest to the subordinate classes. Unless paid down to zero, principal collected will be paid exclusively to the Class A certificates until the step-down date. After the step-down date, and provided that certain performance tests have been met, principal payments may be distributed to the subordinate certificates. Additionally, provided that certain performance tests have been met, the level of overcollateralization may be allowed to step down to 7.60% of the then-current balance of the mortgage loans.

The Underlying Trust consists of first- and second-lien residential mortgage loans that were wholly originated by Wells Fargo Bank, N.A. As of the cut-off date (August 1, 2007), the aggregate principal balance of the mortgage loans is \$454,738,319. The weighted-average mortgage coupon is 8.372%, the weighted-average FICO is 625, and the weighted-average original combined loan-to-value ratio is 80.53%, without taking into consideration the combined loan-to-value on the piggybacked loans.
